# MORIE INU

WHITEPAPER

Introduction:

A whitepaper should be easy to understand and be clear and concise about it's information. Reading this whitepaper will help you better evaluate your holdings as part of the Morie INU community

What is Morie INU?

Morie INU was created to build a support community for the CryptoMorie NFT project in a decentralized way.

The way we will support CryptoMories is through our native token $MORIE by several factors:

The most important factor will be the ability to sweep the floor consistently through our marketing wallet.

This will keep the price of Cryptomories up giving current holders confidence in their NFT investment. We will allocate an airdrop to all CryptoMories holders $MORIE tokens when they join our community.

Grow our CryptoMories assets to 5%+ in holdings allowing the $MORIE community to control a large stake of the NFT project.

CryptoMories sales using our native token $MORIE Constant giveaway of CryptoMories NFTs! Finally, the big one will be our platform that will release during Phase II that will allow current Cryptomorie holders to swap a Cryptomorie for ones they like more on our marketplace.

How are we a MaaS ?

Different from any other meme token we are building an ecosystem on top of an ecosystem. This is almost considered a support ecosystem for the parent one.

A MaaS is a (meme as a service) token
which will service the current Cryptomories #LaFamorie and push its floor price above anything we have seen until now.

The term MaaS was coined by Dr. NAUT who is the CEO of Astronaut Launchpad and part of
the Morie INU support team.

Why should I buy Morie INU?

Buying $MORIE will boost the Cryptomories ecosystem, we aim to take a 5% share of all Cryptomories by Phase III. We sweep marketing wallet, not only raising the floor whenever we get the chance but also giving $MORIE a use case.

Hold $MORIE and receive redistribution meanwhile the deflationary tokenomics are activated. We will create a black hole burn to a 0x0000dead address upon launch. This will speed up deflation to push more tokens into the black hold.

You will be able to buy Cryptomories with the native $MORIE token on our marketplace!
Furthermore, during Phase III you'll be able to swap any Cryptomorie for any Cryptomorie from our vault! Pick the one you love drop the one you don't ! #LaFamorie

Morie INU Roadmap:

Roadmap Phase I

- Token Creation
- UI Version 1.0
- Marketing Campaign
- KOL Onboarding
- Launch Morie INU
- CMC / CG Listing
- Cryptomorie Holder Airdrop

Roadmap Phase II

- Sweep Cryptomorie Floor (MaaS Activated)
- 20 Cryptomorie Assets
- Host 5 Cryptomorie Giveaways
- Marketing Campaign II
- Buy Cryptomorie with Morie INU (Internal Marketplace)
- Morie INU governance portal

Roadmap Phase III

- UI Version 2.0
- Morie INU NFT Swap (Drop a Cryptomorie, Swap a new one)
- CryptoMorie Collaboration
- CEX Listing
- Sweep Cryptomorie Floor (MaaS Activated)
  50 Cryptomorie AssetsvHost 30 Cryptomorie Giveaways

Morie INU Tokenomics:

- **Max Supply**
  - **10,000,000,000**
- **15% Private Sale**
- **10% Liquidity**
- **50% Burn on Launch**
- **5% Airdrop**
- **5% Team (Locked)**
- **15% CEX Reserve (Locked)**

- -

- **6% Marketing Wallet (CryptoMorie Sweep)**
- **3% Liquidity (Allowing us long term growth and sustainability)**
- **1% Burn (Black Hole Deflationary)**
- **1% Redistribution (Hold and Gain)**
  11% Slippage
